

Addition Facts Online Game - Sums with 7 to 14

"7 Up" card game (grades K-2)

Practice your addition facts in this fun and simple card game!

- Deal seven cards dealt face up (for sums of 13 & 14 it will be eight).
- Choose any two cards that make 10 (or your chosen sum) to discard.
- When there are no cards that make that sum, click the deck to deal more cards.
- There is a slight chance that the game will get stuck (depends totally on chance), but most of the time you will be able to clear all the cards, and win!
- Pick a sum, for example a sum of 10, for each round.
